

VIOLENCE-FREE ZONE

A safe workplace is a successful workplace.

- Try to resolve conflicts calmly, without bullying, threatening or harming anyone or their property.
- Watch for behavior that becomes threatening or intimidating.
- If a situation occurs that could result in immediate danger, ensure your personal safety by following emergency procedures and if necessary, removing yourself from the area.

Stay alert at all times and follow our safety requirements to protect yourself and others. Speak to your manager or another internal resource about anything that could put people at risk.
