

Implement NAVEX IRM™ with Strategic Partner Alliance Services

NAVEX IRM™
INTEGRATED RISK MANAGEMENT

The Challenge

Customers have many challenges to overcome when managing their integrated risk management programs. NAVEX IRM helps organizations of all sizes become more resilient by bringing visibility to risks frequently managed in disparate sources. By having everything centralized, correlated and connected, the platform enables them to see dependencies and to make smarter business decisions. However, many customers require guidance and support that goes beyond the platform. They need comprehensive risk and compliance advisory services, including program assessments, process transformation, and managed services. They also struggle with balancing, maintaining and carrying out business processes while building and defining new improvements.

The Solution

The Partner Alliance Services program offers industry tested solution design and expertise that builds on the NAVEX IRM's platform knowledge. Together with our strategic partners, NAVEX provides holistic IRM programs specific to each customer's industry. By collaborating with our NAVEX IRM-certified partners, you can efficiently implement your strategies in the platform and meet your risk and compliance objectives.
