NAVEX®

Simplify your third party's experience during your onboarding process

An efficient third-party onboarding process is one where third parties can self-register with necessary information and additional details relevant to your review process. When prospective third parties access and complete templated onboarding assessments, you are able to collect the right information from the start.

- The process of bringing on a new third party is more robust and complete when it is managed within the NAVEX One GRC Platform, which allows your third party to do self-onboarding in an automated and secure workflow.

Step 1	Step 2	Step 3	Step 4	Step 5	Step 6
Receives link	**Fill out information**	**Submit information**	**Provide clarification**	**Receive approval**	**Access to policies**
Vendor receives request for business information	Answers and provides documentation as required	Submits completed assessment for review	Sends documents or answers follow-up questions	Notified of approval of completed assessment	Receives access to relevant policies and hotline
