

Whistleblowing System With Secure Reporting Channel and Case Management Tool

“Companies with whistleblowing systems, that include the possibility of anonymous reporting, suffer smaller losses from fraud.”

–ACFE Report to the Nations on Occupational Fraud and Abuse

“Whistleblowing is the most effective tool for fighting corruption.”

–Transparency International, Sweden

...That’s why users in more than 150 countries trust the NAVEX WhistleB whistleblowing system, with state-of-the-art security. NAVEX WhistleB’s customer base consists of companies, authorities, and financial institutions of all sizes, from 30-300,000 employees, that want to increase transparency and foster ethical behavior.

Challenges

Corruption, fraud, environmental malpractice, harassment or discrimination can be happening in any organisation. And the last thing you want is to find out about it via media or social media, you need to retain the issue within the company.

Ideal solution

Your stakeholders need a secure and trusted method to sound the alarm – quickly, simply and anonymously. Your organisation’s board and management need tools, a structure and a process to be able to respond efficiently, appropriately and in line with local law.

Desired outcomes

Employees and other stakeholders feel confident to come forward and make a report. Through the early warnings you can mitigate potential risks and protect against financial loss, reputational damage, your employees and other stakeholders.

The NAVEX WhistleB System

Whistleblowing Made Credible, Easy and Secure

Easy to report, respond and manage

Whistleblowers can access the web Reporting Channel 24/7, in any language, from a range of devices, anywhere. Managers receive notifications and respond via an intuitive Case Management tool, which allows secure handling of cases in accordance with local legislation.

Dynamic; right for your organisation

Our service is highly scalable, so you choose languages, level of support, add-on services, Reporting Channels and more. The system is also fully compliant with the national laws where you operate, for example the EU GDPR and the EU Whistleblower Protection Directive.

Top security for anonymity and trust

The system is compliant with the strictest data protection laws. NAVEX partners with Microsoft Azure to provide best-in-class IT service that protects sensitive data and safeguards the whistleblower's anonymity. We undertake regular security and vulnerability testing.

The NAVEX WhistleB Whistleblowing System + Microsoft Azure = Trust

The success of the NAVEX WhistleB system is based on trust. An employee reporting misconduct needs to be confident that they are, and can remain, anonymous. The company itself needs to protect sensitive data. With Microsoft Azure and the NAVEX WhistleB secure application the system safeguards the anonymity of the whistleblower as well as sensitive data.

Best-in-class security

The system is delivered through Microsoft Azure data centers, each designed to run 24/7/365, using state-of-the-art security solutions. Your data is secured via encryption and accessed by authorised users only.

Compliance

NAVEX has chosen Microsoft Azure for its hosting and development platform as it has the most comprehensive set of compliance offerings of any cloud service provider, including ISO 27001, ISO 27018 and the EU GDPR.

Future proof

The NAVEX WhistleB system is used in 150+ countries and is continually developed based on customer needs. The design of the Microsoft Azure platform enables high scalability and flexibility, offering you a future-proof service.

Renault Group

Customer challenge

"Groupe Renault wants to make available a secure and easy-to-use alert system available to all employees worldwide and to protect whistleblowers.

Groupe Renault has to comply with a new set of laws in France (anti-corruption and duty of vigilance laws) that requires the implementation of a new alert system."

Why choose the NAVEX WhistleB system?

"Our main criteria to select our provider were the compliance with our security requirements and local legal requirements, the ease-of-use of the system and the European experience."

How we helped

"Support has been flexible, creative and responsive."
